Terms of Use Agreement for *Cascade by TinkRNG* and *Cascade Genesis by TinkRNG*

This Terms of Use agreement constitutes a legally binding agreement made between the "**User**" and "**TinkRNG**" concerning access to, and use of, "**Digital Art**" produced by TinkRNG as part of *Cascade by TinkRNG* and *Cascade Genesis by TinkRNG*. User agrees that by accessing the website and/or possessing the Digital Art to agree to the terms of the Terms of Use agreement.

Updates to this Terms of Use agreement or documents posted on this webpage from time to time are hereby expressly incorporated herein by reference. **TinkRNG** reserves the right to make changes or modifications to these Terms of Use at any time and for any reason. **TinkRNG** will alert **User** about any changes by dating updates (e.g., updating the "Last updated" date of these Terms of Use), and **User** waives any right to receive specific notice of each such change.

The **Digital Art** is generated by an algorithm that makes artistic decisions based on a limited set of freely accessible information about naturally occurring proteins in the Home sapiens proteome. The information was obtained from The UniProt Consortium and/or The Gene Ontology Consortium. Specifically, only the protein name, amino acid sequence, and two Gene Ontology (GO) annotation terms were used. No additional information was used, and no software or analysis tools from either source were used. **TinkRNG** believes this use is subject to exceptions under copyright law such as fair use, but to the extent it is considered adapted material, it is licensed under copyright as "**Licensed Material**" from the following sources:
